OFFICIAL STATEMENT RE CANCELLATION OF WORK AT PASSI CITY HALL

It was no less than President Rodrigo R. Duterte who made an announcement that it is up to Local Chief Executives (LCEs) to carryout measures to ensure the welfare of the people to combat Corona Virus Disease 2019 (COVID-19).

The City Government of Passi has been proactive in ensuring the safety of students, teachers, farmers, vendors, businessmen, drivers, employees of private businesses and Passi City Hall in these trying times.

As City Mayor, I am and will always be after the safety of Passinhons and this can be manifested by the official statements that I have issued in the past.

As government officials, we are expected to deliver the services to our fellow Passinhons and make sure that they are given with proper care. However, I understand that our City Hall employees have their own family. They are parents, grandparents, sisters, brothers, children to some people. They, too, need to ensure that they are safe against COVID-19.

Although there is no confirmed case in the Province of Iloilo or in Passi City, we need to make steps in order to maintain this status. That is why, I AM SUSPENDING GOVERNMENT WORK AT PASSI CITY HALL STARTING MARCH 19-20, 2020 in order to give our government employees time to take precautionary measures in their respective home to combat the disease.

Despite the cancellation of government work, the City Task Force on the Management of Novel Corona Virus (CTF-nCOV) will continue to be operationalized 24/7 at City of Passi Arena (COPA) where the command center is located.

Likewise, the boundary of the Province of Iloilo and Province of Capiz will continue to be supervised by our policemen and health care workers 24/7 to ensure that everyone is compliance with the Executive Order No. 028-C of Iloilo Governor Arthur Defensor Jr.

#Together We Will Bring Passi City To Its Greater Heights!

ATTY. STEPHEN A. PALMARES, CPA

CITY MAYOR
